ONE Philips IGT workshop for graduating fellows (peripheral and coronary track)

This will be a hybrid experience that will begin with virtual sessions starting April 13, 2021 and culminate with an in person, One Philips IGT experience workshop May 21-22, 2021.

Location:

Philips
595 Miner Rd.
Highland Heights, OH

Objectives:

- This course content is for graduating interventional cardiology, vascular surgery and interventional radiology fellows looking to develop their skills for utilizing IVUS, physiology and imaging systems for the treatment of their patients. Ideal for those fellows who are currently training in a Siemens, GE or Toshiba lab and transitioning to a Philips lab as an attending physician, or you want to sharpen your skills with Philips IGT systems.
- The program will discuss how imaging technologies can be used to create personalized treatment algorithms for your patients.
- This program will have a coronary and a peripheral track.

Faculty:

All-star line up to be shared at a later date.

Registration:

A registration link will be available soon. If you are interested, please email Philips Fellows Relations at: fellowsrelations@philips.com
